## The Way I See It

Now that Governor Parson has approved the Fiscal Year 2024 State budget, MoDOT has started releasing information on how they intend to add a lane and reconstruct I-70 from Grain Valley on the west side of the state to Wentzville on the east side of the state. As you can imagine, with this monumental task, at this point there seems to be more questions than answers. From my conversations with Eric Kopinski, I-70 Program Director, they are looking at breaking construction into six or more projects. The first project will be from Columbia to Kingdom City and will be procured as a Design Build. Going forward from there, MoDOT is planning to work with industry to determine what are appropriate project sizes and procurement methods. At this point they are only going to consider traditional design, bid, build, or design build.

For our industry pavement type selection is probably the biggest question. From what Eric has shared with me, MoDOT plans to do alternate bidding for full depth sections for the conventional design, bid, build, and will allow teams to choose what type of pavement they want to use on the design build sections. One thing that Eric shared is that not all the existing pavements may get replaced. He stated that there are some sections that could use a thick asphalt overlay in addition to the lane addition. A pavement treatment option that has rarely been used in Missouri is rubblization. MoDOT has indicated that they are open to this option as well. Over 20 years ago, Arkansas DOT rebuilt all of I-40 and it is still performing great today. With all of this in mind, I believe our industry is well positioned to participate in this once in a lifetime opportunity to rebuild an interstate. If you are interested in receiving early release information for the I-70 corridor submit a request to the following email: [improvei70@modot.mo.gov](mailto:improvei70@modot.mo.gov).

**Executive Director**  
Dale Williams

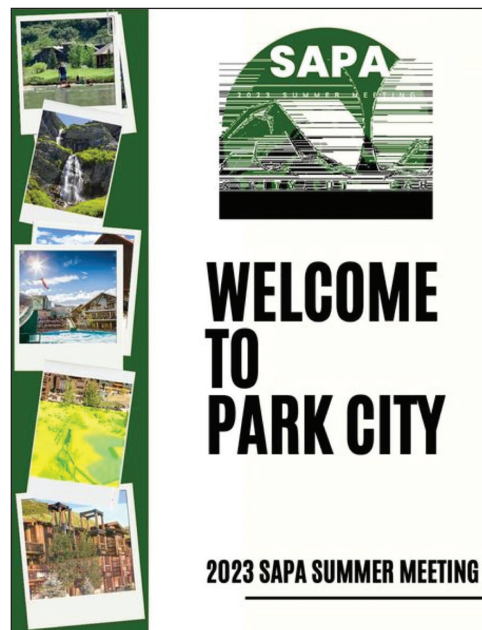

## MAPA-Research and Education Fund (REF) Annual Golf Outing Register Now!

Join us on September 20 at Tanglewood Golf Course and support the MAPA-REF Scholarship Program! All proceeds go to students pursuing a degree in an infrastructure related field, which may include engineering, construction management, geotechnical, surveying, diesel mechanics, heavy equipment operation, and more.

A promotional graphic for the 23rd Annual MAPA Research and Education Fund Annual Golf Outing. The background is a green golf course with a black putter and a white golf ball in the foreground. The text is centered and reads: "23rd Annual MAPA Research and Education Fund" in white, "MAPA REF Annual GOLF OUTING" in yellow and black, "SEPTEMBER 20, 2023" in white, and "Tanglewood Golf Course | 818 Golf Dr. Fulton, MO" in white. A QR code is located in the bottom right corner, with the text "Register Now! moasphalt.org/events" below it.

## 2023 SAPA Summer Meeting

Every summer, the State Asphalt Pavement Associations (SAPA) meet to discuss association management, current technical specifications, best practices, etc. The National Asphalt Pavement Association (NAPA), the Asphalt Pavement Alliance (APA) and the Asphalt Institute (AI) also participate in a portion of the meeting. This year’s meeting was held in Park City, Utah and was hosted by Reed Ryan, Executive Director of Utah Asphalt Pavement Association (UAPA) and current chairman of SAPA. This year’s meeting included a presentation by Don Varroney, Potomac Core Association Consultation on Chronic Uncertainty, Industry and Association Strategic Partnerships and Common Elements that Fuel Successful Strategic Partnerships. We also discussed the utilization of Artificial Intelligence (AI) in the workplace and the new NAPA AI tool “Hey NAPA.” The meeting was rounded out with a presentation from Utah State University on Advancing Sustainability through Powered Infrastructure for Roadway Electrification (ASPIRE) and the Electrification of Roadways in the United States. This meeting is an opportunity for state asphalt pavement associations to come together for networking, information exchange and sharing of best practices and is one that we look forward to attending every year.

## MAPA Municipal Quarterly Roundtable Meetings Set To Resume

After taking the summer construction season off, the MAPA Municipal Quarterly Roundtable Meetings are set to resume in October. Building on the success of our first few meetings, the group is looking to continue the conversation to improve the quality of asphalt pavements while strengthening the contractor/owner relationship.

The goals for these meetings will continue to be bringing our MAPA members and the municipal owners together to discuss asphalt topics relating to design, production, placement, and inspection. The first round of meetings provided owners the opportunity to learn from other owners, producers, and contractors ways to improve every aspect of roadway construction and maintenance resulting in better asphalt pavements delivered at the best value possible. Our MAPA contractors were given insight into the struggles of municipal roadway management.

The biggest development coming out of the first few meetings was the need for a universal localized quality specification manual and bid package specific to our area’s municipal roadways. MAPA’s technical committee is continuing to work with our state and local officials to develop this guide. This roundtable will provide the platform for the details to continue to be discussed and finalized.

In addition to completing the specification guide, the group will discuss:

- The value of localized materials,
- Ways to attract more qualified bidders,
- How timing (relating to bid package releasing and/or construction deadlines) effects bidders; and
- Pricing and using design/build in new or total reconstruction projects.

If you would like to participate in these conversations and/or have ideas for additional topics you would like to discuss, please join us. Support from our membership is critical to the success of these meetings. Attendance is open to all MAPA members and any of the over 100 St. Louis area municipalities. If you are interested in joining us, please check out the events tab of the MAPA website or reach out to our office to make sure you are added to the invite list.

## Networking Builds Relationships

By Cecilia Cain

Vice Chairwoman of WofA Missouri Branch and Construction Manager for Delta Companies Inc.

The Women of Asphalt organization offers engaging networking opportunities for men and women across the asphalt industry. In 2022, the WofA Missouri Branch had opportunities to hold multiple networking events across the state. The first was held in Kansas City, sponsored by Missouri APA member Superior Bowen, and focused on “Owning Your G.R.I.T.” by author and publisher Jennifer Bardot. This set the backbone for the event which

led to meaningful conversations between new acquaintances. Networking isn’t about making new contacts but about developing new relationships.

In the summer of 2022, WofA Missouri Branch sponsored happy hour for Missouri APA’s annual summer social. This casual event allowed for easy intermingling between experienced and novice networkers. Networking doesn’t come easy to many people and for them it is important to commit themselves to networking when the opportunity is available. Be willing to sit with strangers or walk up to a group of individuals. For those who are social butterflies be aware that some are not confident in their networking skills and be willing to help engage conversations amongst everyone. This creates support and growth which ties back to our goals within Women of Asphalt.

With the support of Fabick Cat and Roland Machinery Company, the last WofA Missouri event of the season ended at TopGolf in St. Louis, Missouri. We recognized that the typical golf tournament can be intimidating for ladies and felt that an event such as TopGolf would be a great networking opportunity. We couldn’t have been more right as for some this was the first time hitting a golf ball! By stepping out of comfort zones and trying something new this event led to coaching, learning and a lot of laughs.

A key component of networking is to be smile and to be approachable. Be willing to attend a wide range of events as those events open doors to meet so many new people who host a wide range of opportunities both professionally and personally.

*This article was originally published in the July/August issue of Asphalt Pavement Magazine.*

## Women of Asphalt-Missouri Branch Topgolf Event

Come out and support the Women of Asphalt at the Topgolf Social on October 12, 2023, from 3:00 PM - 5:00 PM in Overland Park, KS.

Grab your colleagues and your clubs and network with others while supporting the growth of women in the asphalt industry!

Register at [www.moasphalt.org/events](http://www.moasphalt.org/events) or use the QR code to the right.

MISSOURI WOMEN OF ASPHALT

# TOPGOLF SOCIAL

OCTOBER 12, 2023 - 3:00 P.M. TO 5:00 P.M.

10611 NALL AVE | OVERLAND PARK, KS

A friendly networking event for all!

Register Now!

## Good Times and Great Networking at the MAPA Summer Meeting & Social

MAPA held its Annual Summer Meeting & Social July 26-28 at Chateau on the Lake in Branson, MO. With a great turnout, members enjoyed golf at the beautiful Ledgestone Country Club, hearing from artist and motivational speaker Richard Hight, testing their skills at cornhole, networking at multiple events, and supporting the MAPA Emerging Leaders live auction.

This event is especially enjoyable for MAPA as it brings members together to build new relationships and foster existing ones!

- 1 Artist and Motivational Speaker Richard Hight
- 2 First Place Cornhole Winners: Allen Akowicz and Joe Bardill
- 3 Second Place Cornhole Winners: Tim Bray and Bill Gadwood

MAPA sincerely thanks all the sponsors at this year's event! A special thank you to MAPA's Emerging Leaders for sponsoring keynote presenter Richard Hight and Women of Asphalt-Missouri Branch for sponsoring the cornhole tournament.

## Women of Asphalt

### Missouri Branch to Attend Two Upcoming Build My Future Events

As part of its outreach efforts, the Women of Asphalt – Missouri Branch attends various Build My Future events across the state to promote and educate young adults, especially females, about the amazing benefits of the asphalt industry. Come see them in Poplar Bluff at the Black River Coliseum on October 11 and in Jefferson City at the Jefferson City Jaycees Fairgrounds on October 18 from 9:00 a.m. to 2:00 p.m.

### MAPA/MoDOT August Meeting Recap

The MAPA/MoDOT Quarterly meeting was held August 3, 2023. Highlights from the meeting included a recap of the Balanced Mix Design Specification (BMD) meeting, an update on the MoDOT Truck Tarp Study, the MAPA/MoDOT Work Zone Safety Partnership which included discussion on the Work Zone Typical Application (TA) meeting, the current Disadvantaged Business Enterprise (DBE) Availability Study, the 2024 MAPA Spring Training and upcoming design standard updated.

The agenda, meeting minutes and supporting documents can be found at [www.moasphalt.org/modot](http://www.moasphalt.org/modot)
