

## Quarterly Revisions – Effective October 1, 2025

### Standard Specifications

#### Major Revisions:

**SECTION 403 ASPHALTIC CONCRETE PAVEMENT - Revises Sec 403 to make it more consistent with Sec 401 and 402, which both allow “race tracking” as long as the “race track” is completed (i.e., make it back to the starting point) within one week.**

*Sec 403.13.1 Uneven Lanes.* Change section title from “Paving Widths” to “Uneven Lanes”. Delete the first four sentences. In the new first sentence, add “For roadways constructed under traffic” before “uneven pavement”, add “lanes” between “uneven pavement” and “shall”, add “not” between “shall” and “be left in place” and delete “no” between “in place for” and “more than seven days”. Delete the last sentence.

#### Minor Revisions:

**SECTION 102 BIDDING REQUIREMENTS AND CONDITIONS – Revises Sec 102 to reflect CSR updates (effective July 2025) for prequalification of contractors.**

*Sec 102.2 Contractor Questionnaire.* In the fourth sentence, change “annually” to “as described in Title 7 CSR 10-15.010”.

*Sec 102.2.2* Delete the first sentence. In the new first sentence, change “execute the affidavit, stating” to “sign the contractor questionnaire acknowledging”.

*Sec 102.2.3* Modify first sentence by splitting into two sentences and add/delete text. “The prospective bidder doing business in the State of Missouri, shall submit the charter number with the contractor questionnaire. The entity must be in good standing on file with the Corporation Division of the Missouri Secretary of State's Office to be approved and successfully awarded a bid.”

*Sec 102.2.4* Delete section.

*Sec 102.2.5* Renumber to accommodate deleted section.

**SECTION 108 PROSECUTION AND PROGRESS- Revises Sec 108 to reflect CSR updates (effective July 2025) for prequalification of contractors.**

*Sec 108.13.1* At the end of the last sentence, add “including participating in, or formulating, bids” after “contracting responsibilities”.

**SECTION 413 SURFACE TREATMENTS - Corrects the ISSA Performance Criteria table (Sec 413.10.3). The minimum time of test for "Wet Cohesion (Set)" was mistakenly labeled at 30 seconds, the minimum time should be 30 minutes for this test.**

*Sec 413.10.3 Job Mix Formula.* In the fourth row of the first table, change “seconds” to “minutes” between “Wet Cohesion @ 30” and “Min. (Set)” in the first column.

### Standard Plans

#### REVISIONS:

**620.00P Pavement Marking** (sheet 2 of 6) Deleted the outdated lift thickness shown in Section A-A.

**626.00H Rumble Strips** (sheet 1 of 2) Removed the lift thickness depicted in the Rumble Strip Cross Section View.

(sheet 2 of 2) Deleted the outdated lift thickness shown in Section A-A.
