The Missouri Asphalt Pavement Association is pleased to provide you with the 2025 Membership Directory. This directory is provided to MAPA membership as a resource to use to connect with our industry partners throughout Missouri. This directory is also available to various transportation, consulting and public works engineers, as well as city, county and state officials to provide them with a listing of our members who can provide services and expertise in the asphalt industry. We value our relationships with these industry partners and feel that this diversifies and builds a stronger network for our membership.

The Association also works to promote the Asphalt Industry throughout the year by hosting the Annual Asphalt Conference, “Black to Basics” Spring Training, Summer Social (hosted by our Emerging Leaders Organization), MAPA/MODOT Quarterly Meetings, and “Lunch and Learns” throughout the state. The Annual MAPA-REF Golf Tournament is also a great Fund Raiser which provides scholarships to students pursuing an industry-related education and career. There are also great opportunities for members to get involved to further the asphalt industry by participating in the many committees that work with our industry partners to improve the quality and durability of our asphalt pavements.

I would also like to introduce our newest staff member, Jeff Stark. Jeff has been added to the MAPA staff to replace Rick Biermann who decided to move over to the material sales part of our industry. We hope the best for Rick in his new role, and we are happy that he will still be involved in MAPA as an industry member. Jeff will step in where Rick stepped out, and he will continue to grow the asphalt industry in the St. Louis Market area. Jeff’s title is the Director of Business Development in the St. Louis area, and he will continue to foster our industry connections with Engineers, Builders, and Project Developers. His efforts are funded through a specific assessment on asphalt tons produced and sold in this targeted area. Please welcome Jeff to our organization.

On behalf of the MAPA staff, the Board of Directors, and all our membership and industry partners, I would like to thank you for your continued membership and support of this great association. Please continue your active support—active membership creates a strong and healthy organization.

MAPA is your organization, Keep it Great!

**Andy Ernst**  
Pace Construction Company  
2025 MAPA President

## MAPA History & Mission

### FOUNDED TO PROMOTE QUALITY & ACCOUNTABILITY

MAPA was founded in 1990 as an association to represent the asphalt producers in the state of Missouri. MAPA was born in an environment in which representation was weak but our product, asphalt, was strong. Contractors recognized the need for an Association to represent them collectively. The Association was to serve as a third party working to promote quality work and accountability.

Throughout the years, the functions of the Association have morphed with the ever-changing business environment. While our core purpose is still to represent quality asphalt contractors and work, our strategy has broadened. MAPA's primary functions are to maintain commitment to the industry.

### PROMOTING & EDUCATION

We work to ensure that our members are committed to the quality of construction and work with the Missouri Highway and Transportation Department, counties, cities, towns, and developers to aid in developing and maintaining quality specifications.

In our efforts to produce and place quality asphalt, we actively promote the use of asphalt to municipalities, architects, engineers, landowners, and government entities. Such promotion in turn provides information and education.

## Why Join?

### FOCUSING OUR EFFORTS

All these efforts combine to create a strong Association diligently working to expand the asphalt network. We continually:

- Seek to dispel misconceptions associated with asphalt
- Work to educate decision makers about the cost benefits
- Develop materials to teach consumers why asphalt is the most viable pavement option
- Work with contractors to remain on the cutting edge of industry developments
- Work to inform all parties of factors that impact our industry

The Missouri Asphalt Pavement Association represents the finest asphalt contractors, producers, and suppliers in the state of Missouri. Our Association actively works to promote the use of asphalt through a variety of channels including educational materials, both print and online, onsite visits, aggressive marketing, regional meetings, conferences, and training events.

We offer our members access to the latest technical information and process changes, we create opportunities for members to exchange ideas and innovations in a face-to-face setting, we work to foster greater core service development, and seek to continually educate our members. In addition to the learning opportunities, we create countless opportunities for networking and increased visibility through our website. All of this is offered to members at very competitive dues.

## MAPA 197 CLUB

SUPERIOR BOWEN

## What is the 197 Club?

The 197 Club represents a group of companies who strive to support those initiatives of the Missouri Asphalt Pavement Association. Members' annual donation will go directly to support the Missouri Asphalt Pavement Association—Political Action Committee (PAC).

Noel Torpey with Husch Blackwell Strategies works on behalf of MAPA with the Missouri General Assembly. The MAPA Legislative Liaison has been instrumental in the passage of several transportation funding measures. They also work on our behalf to defeat legislation that is harmful to our industry.

The 197 Club enhances our ability to strengthen our voice at the State Capitol.

## MISSION STATEMENT

MAPA Emerging Leaders is comprised of professionals within our industry who strive to promote the proper use of asphalt, pavement selection, and collectively advance the asphalt market. Members of this group will have the opportunity to form new friendships, grow professionally, and learn more about the industry through educational opportunities.

*If you are interested in learning more about this group or would like to join, contact Rick Biermann, [rick@moasphalt.org](mailto:rick@moasphalt.org).*

# DISADVANTAGED BUSINESS ENTERPRISE PROGRAM

The Disadvantaged Business Enterprise Program is a federally mandated program administered by MoDOT's External Civil Rights Division. The office is responsible for the certification of firms owned and operated by socially and economically disadvantaged individuals.

The overall goal of the program is to provide opportunities to participate in the economic benefits of highway construction to small businesses owned and operated by disadvantaged individuals.
